SUMMARY

Motivated B.Tech Information Technology student with a strong foundation in programming and web development. Skilled in **software development lifecycle (SDLC)**, including development, testing, and debugging of applications. Proficient in **C, C++, Python, and JavaScript**, with hands-on experience in AWS cloud services and full-stack development. Strong problem-solving mindset with the ability to learn quickly and collaborate effectively in team environments.

SKILLS

Programming:	C, C++, Python, JavaScript
Software/Web Development:	HTML, CSS, React JS, Node JS, Tailwind CSS
Cloud Technologies:	AWS (Lambda, API Gateway, EC2)
Databases:	MySQL, SQL (Joins, Filtering, Aggregations)
Tools:	Git, GitHub, Linux Basics
Core Concepts:	Data Structures & Algorithms, Object-Oriented Programming, Operating System, SDLC, Debugging, Testing & Validation

EDUCATION

Bachelor of Technology (Information Technology)

2022 – 2026

Poornima College of Engineering, Jaipur

Schooling (Class X & XII)

Subodh Public School

INTERNSHIPS

Web Development Intern - Regex Software, Jaipur

2 Months

- Assisted in the **development, testing, and debugging** of web applications using HTML, CSS, JavaScript, React JS, and Node JS.
- Implemented dynamic features and validated functionality to improve user experience and application performance.
- Identified and resolved logical issues during development to ensure smooth functionality.
- Collaborated with team members using **Git-based version control** and participated in technical discussions.

Cloud & Backend Intern - Regex Software, Jaipur

- Contributed to the **design, development, and testing** of a serverless bus booking system using AWS and Python.
- Worked with AWS services such as Lambda, API Gateway, DynamoDB, and EC2 to build scalable solutions.
- Analyzed system behavior and debugged issues to improve reliability and performance.

PROJECTS

Serverless Bus Booking System

AWS - Python - MySQL

- Developed a cloud-based bus booking system using AWS services and backend technologies.
- Implemented serverless architecture to improve scalability and efficiency.
- Performed testing and debugging to ensure reliability and performance.

Fabric Mania - E-Commerce Website

HTML - CSS - JavaScript

- Built a responsive e-commerce platform with modern UI and dynamic features.
- Implemented front-end logic and ensured functionality through testing and debugging.

Skillenza - Real Time Job Tracking

React JS - Tailwind CSS - Node JS

- Developed a full-stack job tracking platform that enables users to upload resumes and receive relevant job recommendations.
- Designed and implemented a secure user authentication and resume management system using Node.js and MySQL.
- Built responsive and interactive frontend using React.js and Tailwind CSS to enhance user experience.

CERTIFICATIONS

- NPTEL Java Certification – IIT Madras
- NPTEL: The Joy of Computing Using Python
- AWS Cloud Internship Certification
- MERN Stack Certification
- HTML/CSS Certification – InternPe
